

UNITED STATES FEEDSTOCK

THE RICHEST FEEDSTOCK YOU CAN BUY

US Feedstock is the only high volume source of high value feedstock in North America. Over 10 million tons of feedstock available. Delivered (DAP) to your facility with all freight paid.

Feedstock Overview

- Over 10 million tons of feedstock available for purchase
- Feedstock delivered (DAP) to your facility all freight paid by seller
- 2:1 ratio of silver to gold based on mass
- 70% free milling and low sulphide ores
- 30% refractory and sulphide ores
- All ores have low levels of lead, mercury, selenium, and arsenic
- 0.107 GEO/ton based on independent lab fire assays
- 0.075 minimum average GEO/ton
- Milling cost minimized, feedstock size ranging from fines to 6" diameter
- Feedstock assayed and weighed by you at your facility
- Feedstock bulk samples delivered per request
- Pricing discounts range from 30% to 50% of net GEO value.

How Buy?

Simple Structure

You purchase feedstock in the quantity, grade, and geochemistry you require.

Simple Process

Our crews remove the feedstock and deliver it to your facility with all transportation costs paid by US Feedstock.

Simple Valuation

Feedstock is sampled, fire assayed, and geochemistry tested to ensure it meets your standards prior to delivery.

Bonus

You get everything in the feedstock. The feedstock typically contains a wide range of monetizable minerals in addition to the gold and silver you purchase.

Full Control

You never give up control. You value feedstock on your site. You do not pay for feedstock in advance.

Financing

We can offer short-term payment terms of Net 10, 15, 30, or 60 days, as well as longer term financing of up to 12 months.

Why Buy?

Maximum Profits

By purchasing feedstock that meets you exact needs you minimize your processing costs.

Zero Mining

By purchasing feedstock you eliminate any mining activities.

Turnkey Delivery

There is nothing to do. Feedstock meeting your exact requirements is delivered (DAP).

Richest Feedstock

Your feedstock will have a minimum average of 0.075 GEO per ton, with a maximum silver to gold ratio of 2:1 based on mass.

Deep Discount

You purchase the richest feedstock available at a major discount.

Juice Cash Flow

Purchasing ultra-rich feedstock is an easy way to instantly increase your profits.
